Draw KeeKee from KeeKee's Big Adventures

1

When Casey the illustrator draws KeeKee she starts with a basic 'frame' to help guide the lines.

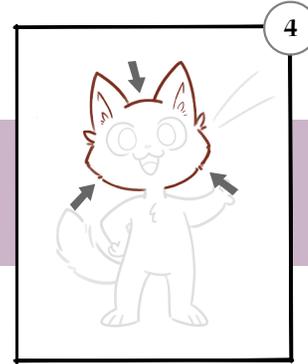

2

We will start with an outline of KeeKee to help guide you.

3

Let's start with KeeKee's ears. The ears are like pointy mountains, then draw M shapes inside the ears for fluff in the ears.

4

Now draw the outside of her head and face. Between her ears, her head is shaped a little like a football. add some fluff as you go.

5

Add a C shape for her left eye. A backward C shape for her right eye. A small triangle nose and a wide W for her mouth.

6

Now add egg shapes for each eye, a U shape for the mouth, and a curve for her tongue.

7

Add two short lines for her neck, curves for the top of each arm and the bottom of each arm. Since she has her hand on her hip we'll just add a small triangle.

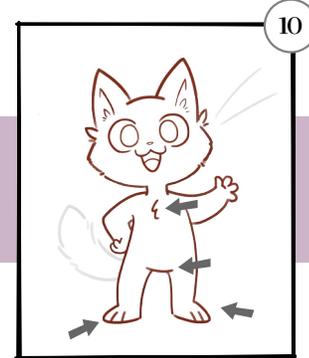

8

Now draw her fingers. Add a thumb and fingers by adding U shapes! (Funny how characters often only have 4 fingers).

9

Draw curved lines for the sides of her body, and two lines for the inside of her legs.

10

Add a line for the bottom of her belly, and some feet. Oh, and a squiggle for fluff on her chest!

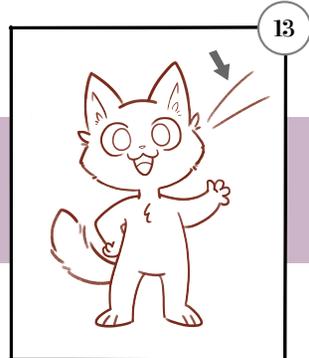

11

Draw a couple of lines to start her tail.

12

And a few more to finish her tail!

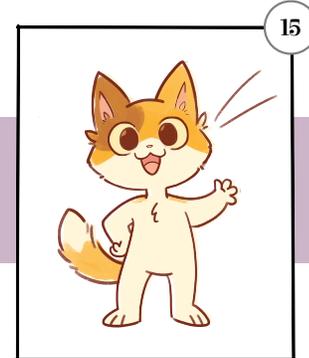

13

And finally KeeKee's whiskers!

14

Now you can add color if you want.

15

And color her whole body tan if you want too. Nice work you're done!
