

Let's Draw a **FACE**

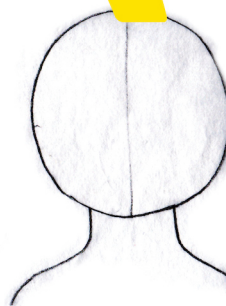

START with a circle.
It doesn't have to be perfect.

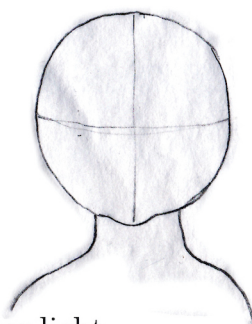

Add a little neck.

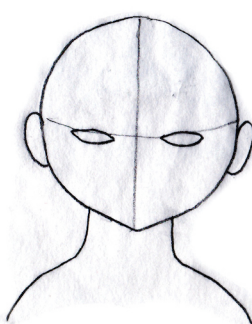

Perhaps some shoulders.
A light guideline down the center of our face.

Another light guideline across.

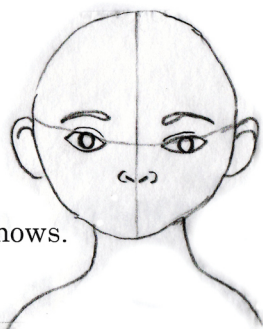

The eyes. These are shaped like almonds.
Add some ears.

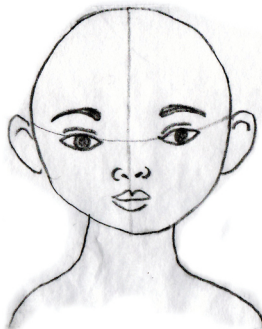

Some eyebrows and pupils.

a nose knows.

Mouth and hairline.

TRY DIFFERENT:
Ears, eyes, noses,
mouths and hair!
The possibilities are
endless!
