

How to Draw a Fairy

Art and concept by Jessica Roux.
Holly Blue Fairy from *A Natural History
of Fairies* by Emily Hawkins (Quarto).

1. Draw the head. You can give your fairy short hair, long hair, or no hair! Make sure you add ears, too, so your fairy can hear everything around them.

2. Add in your fairy's facial features: eyes, nose, mouth, and any other details you might want to include.

3. Draw the top of the fairy's clothing. Fairies make their clothes out of leaves, flower petals, and more!

4. Add in the arms.

5. Draw shorts, pants, or a skirt.

6. Next, draw your fairy's legs.

7. Draw your fairy's wings. Add in spots, stripes, or patterns, and have fun with it!
