

# HOW DO YOU DRAW?

1

Draw 1 circle for the head and another for the body.  
Use rectangles to draw rough arms, legs, and a book.

2

Add small circles for her buns.  
Use smaller rectangles to show where the feet and hands are, and where the legs and arms bend.

3

Use simple curves to show her ears, hairline, hand, and the curve of her dress.  
Add a smiling face.

4

Use small lines to add details such as her fingers, toes, ankle, and even a few creases in her dress.

5

Color her hair black and make the angles of her arms and legs softer.

6

Color her in and draw her into a place where you would want to read a book!
