

DRAW ALONG

Follow the step-by-step drawings. Have fun adding the detail on step 8. Remember Bubbe is a very old lady so make sure to add those wrinkles on her face and accentuate her hunched posture. Experiment creating your illustrations using different materials. When creating the illustrations for the book I drew with a pot of ink and a fine brush and added some additional detail with a pencil like the print on Bubbe's head scarf and the wrinkles on her face as you can see in step 9.
